

ANNOUNCEMENT

After lengthy work and discussions, the Board of Directors voted to move forward on bringing the Water Conservation Incentive Program (WCIP) in-house under MWA management.

Key changes are:

- Toilet Vouchers- As of May 28, 2010, ***the end of this week***, no additional toilet voucher applications will be accepted. Any unredeemed vouchers will be voided and expired vouchers will not be replaced.
- Clothes Washer and Toilet Rebates- No rebate applications will be accepted after June 30, 2010. Rebate applications received before June 30, 2010 will be processed and qualifying applicants will receive a rebate check.
- Cash for Grass Rebates- Applicants who have submitted their applications before June 30, 2010 will be in the queue for a rebate. However, depending upon whether or not there is the capability of completing the post-inspections between July 1 and December 30, these applications may not be rebated.

MWA has the right to modify or suspend the program at its discretion and a lack of funding is the only reason for these changes. No exceptions to the end dates provided will be granted at this time.

MWA is planning to reinstate the cash for grass program **only** with an open enrollment period starting in November 2010 until March 2011.
