**Compliance with CalRecycle**

November 16, 2022

# District Solid Waste & Recycling History

- ▶ In 2011, the District took over solid waste powers from the County of San Bernardino, assuming responsibility for meeting the State of California's existing and future recycling requirements
  - ▶ Adopted existing Franchise Agreement between CR&R and the county
- ▶ Began reporting diversion to the county in 2016
- ▶ In December 2017, the District adopted:
  - ▶ Ordinance No. 2017-02 - Established mandatory commercial solid waste service
  - ▶ Ordinance No. 2017-03 - Established mandatory commercial recycling service
- ▶ Franchise Agreement Revision - July 2019
- ▶ Franchise Amendment for SB 1383 Related Service - January 2022
- ▶ In April 2022, the District adopted:
  - ▶ Ordinance 2022-02 - Established mandatory disposal requirements and enforcement provisions required by SB 1383

# District Compliance Requirements

- ▶ California Integrated Waste Management Board's (CalRecycle) requirements for local jurisdictions.
- ▶ All Community Services Districts with solid waste powers are subject to Public Resources Code Division 30 (Commencing with Section 40000 et seq.)
  - ▶ Required to comply with state waste management & diversion laws and reporting requirements as stipulated in Section 41821.2 of the Public Resources Code
  - ▶ Must meet all state and local (county) requirements for the disposal of solid waste. Solid Waste is:

**TRASH - RECYCLING - ORGANICS**

# District Compliance Requirements

## ▶ Trash Requirements

### ▶ California Housing Code Requires:

- ▶ An adequate number of trash cans with securely closing lids kept in good condition.

### ▶ California Public Resources Code Requires:

- ▶ Removal of trash every seven days.

## ▶ Is the District Compliant?

## ▶ Current Compliance Method

- ▶ Weekly subscription with CR&R

and/or

- ▶ Self-haul trash to transfer station “dump” weekly

# District Compliance Requirements

## ► SB 1383 Edible Food Recovery

REQUIREMENT & DESCRIPTION	COMPLIANT?	COMPLIANCE METHODS
<b>Identify Commercial Edible Food Generators</b> <ul style="list-style-type: none"> <li>• Tier 1 - January 2022</li> <li>• Tier 2 - January 2024</li> </ul>		Ordinance No. 2022-01 allows the District to: <ul style="list-style-type: none"> <li>• Survey all businesses in the community and prepare a list of Tier 1 and Tier 2 generators</li> <li>• MOU with County?</li> </ul>
<b>Provide Education &amp; Outreach to Tier 1 and Tier 2 Commercial Edible Food Generators</b> <ul style="list-style-type: none"> <li>• To be completed by Feb. 1, 2022</li> </ul>		<ul style="list-style-type: none"> <li>• Ordinance No. 2022-01 defines Tier 1 and 2</li> <li>• CR&amp;R staff completed initial outreach to Tier 1 generators.</li> <li>• Continue outreach and develop marketing materials and outreach schedule</li> </ul>
<b>Assess Community Capacity</b> <ul style="list-style-type: none"> <li>• If more food is available than recovery organizations can accept, the District must actively expand and create new infrastructure to grow food recovery networks</li> </ul>		Generator: assess how much recoverable food is being disposed of instead of donated.  Recovery Orgs: assess if they are receiving more than they can support
<b>Inspect for Maximum Recovery</b> <ul style="list-style-type: none"> <li>• Food donors must offer donation of the maximum amount of edible food they would otherwise dispose of</li> <li>• Generator to keep records of types and quantity of food recovered</li> <li>• Verify edible food recovery contracts and <a href="#">written agreements</a></li> </ul>		<ul style="list-style-type: none"> <li>• Ordinance No. 2022-01 allows the District to:               <ul style="list-style-type: none"> <li>• Inspect Tier 1 and Tier 2 generators</li> <li>• Require recordkeeping</li> <li>• Contracts with recovery organizations</li> <li>• Require maximum recovery</li> </ul> </li> <li>• MOU with County?</li> <li>• Develop model agreements</li> </ul>
<b>Post Contact Information of Food Recovery Organizations on <a href="#">Website</a></b>		<ul style="list-style-type: none"> <li>• Post required information on website</li> <li>• Determine if additional organizations exist that collect from our area</li> </ul>

# District Compliance Requirements

- ▶ **SB 1383 Education** ☹️
- ▶ Annually educate all organic waste generators, commercial edible food generators, and self-haulers about relevant requirements
- ▶ Jurisdictions must provide printed or electronic communication
- ▶ Jurisdictions may supplement with direct communication

CALIFORNIA SENATE BILL 1383 ORGANIC WASTE RECYCLING REQUIRMENTS ARE COMING TO OUR COMMUNITY  
 LOS REQUISITOS DE RECICLAJE DE PRODUCTOS ORGÁNICOS DEL PROYECTO DE LEY DEL SENADO (SB) 1383 VIENE AL COMUNIDAD

**New Organics Recycling Program Starting December 2, 2019**

On December 2, 2019, CSR&R Environmental Services, together with the City of La Habra will launch a new Organics Recycling Program. Your green cart will now accept food scraps in addition to yard waste. An organics decal sticker was placed on the lid of your green cart outlining acceptable materials. The collected organic material will be delivered to CSR&R Regional Organics Resources Facility (ORF) to be converted into renewable natural gas and anaerobic compost. This new program will divert your organic material away from the landfill.

**Tips for using your organics cart:**

- Put wet food items such as bones, grass clippings, and/or other soft material in your organics cart to prevent food scraps from being trapped.
- Always loosely fill food scraps and wet linings will help to keep your cart cleaner.
- Keep your organics cart on one side of street curbside to reduce odor.
- Compostable bags are optional and available at local retailers. Other types of bags are not accepted.

**Changes in State Law**

The State of California set an ambitious goal of 75% recycling compliance or source reduction of solid waste by 2020. To achieve this goal and comply with recent state regulations, the City of La Habra together with CSR&R Environmental Services has launched a new Organics Recycling Program for residential properties.

**NO HAZARDOUS MATERIALS**

**Food Waste Recycling Program**

**YES**

Place the following items in your food waste container:

- All food preparation scraps
- All table scraps
- Solidified fats or greases
- Spoiled food

Make food waste containers easily accessible for staff. Make sure containers are labeled correctly so staff knows what material goes in each container. Provide training to staff (CSR&R is available to assist in any training program).

**NO**

Do not place the following in your food waste container:

- Plastic
- Glass
- Metal
- Liquids
- Styrofoam
- Trash
- Paper
- Bones
- Seafood Shells

Do not place containers out of sight for employees. Do not overfill container. Food waste is much heavier than regular trash.

# District's Current Compliance Requirements

- ▶ **SB 1383 - Route Reviews, Waste Evaluations, & Enforcement** ☹️
- ▶ A jurisdiction shall generate a written or electronic record for each inspection, route review, and compliance review conducted. Each record shall include, at a minimum, the following information:
  - ▶ (1) Identifying information for the subject or subjects of the inspection, route review or compliance review, such as, but not limited to: The name or account name of each person or entity.
  - ▶ (2) The date or dates the inspection, route review, or compliance review was conducted.
  - ▶ (3) The person or persons who conducted the action.
  - ▶ (4) The jurisdiction's findings regarding compliance, including any Notices of Violation or educational materials that were issued.
  - ▶ (5) Any relevant evidence supporting the findings in (4) above, such as, but not limited to, photographs and account records.
  - ▶ (6) Route review records shall also include a description of the locations of the route review(s) and the addresses where prohibited container contaminants are found, if any.
- ▶ A jurisdiction may meet its contamination minimization requirements by conducting waste evaluations.
- ▶ A Notice of Violation shall include the following information: The name(s), or account name(s) if different, of each person or entity to whom it is directed. A factual description of the violations of this chapter, including the regulatory 14 CCR Section(s) being violated. A compliance date by which the operator is to take specified action(s). The penalty for not complying within the specified compliance date.

# District's Current Compliance Requirements

## ▶ **SB 1383 - Recordkeeping** ☹️

- ▶ The implementation record is to include at a minimum:
  - ▶ A copy of all ordinances or enforceable mechanisms, contracts, and agreements
  - ▶ A written description of the inspection and enforcement program
  - ▶ All organic waste collection service records
  - ▶ All contamination minimization records
  - ▶ All waiver and exemption records
  - ▶ All education and outreach records
  - ▶ All hauler program records
  - ▶ All jurisdiction edible food recovery program records
  - ▶ All recovered organic waste procurement target records
  - ▶ All recycling content paper procurement records
  - ▶ All inspection, route review, and compliance review documents
  - ▶ All records of enforcement actions
  - ▶ All records of complaints and investigations of complaints and compliance with the jurisdiction's inspection and enforcement requirements
  - ▶ All records required by jurisdictions implementing a performance-based sourced separated organic waste collection service

# District Compliance Requirements

## ▶ **SB 1383 - Capacity Planning**

- ▶ Evaluate Current Infrastructure
- ▶ Plan for New:
  - ▶ Compost Facilities
  - ▶ AD Facilities
  - ▶ Edible Food Recovery
